RE: docket number 98P-0151/CPI

Dear FOOD & DRUG ADMINISTRATION,

In regard to 98P-0151/CPI, the petition to prohibit the slaughter of downed animals, I believe animals to sick or injured to stand should NOT be slaughtered and allowed to enter the food supply. There is too much evidence that this can be fatal to humans. There are documented cases in Europe and the U.S. that the human disease, Creutzfeldt-Jakob Disease, is linked to mad cow disease.

Further, animals deserve better care and handling on their way to slaughter. They should not be dragged with chains, prodded with electric prods, or pushed with tractors, causing them further injury and pain. Because they are food animals does not mean humane treatment is withheld.

98P-0151 Please grant the petition to prohibit the slaughter of downed animals. Sincerely,

Ms. Dianne M. Bahr
